  - Requisitions: Andrew-To replace components of the current sound system; System hasn't been replaced in the last 20 years or so; Would benefit students and the quality of programs at Whitworth, especially bands; \$12,500 total of the three requisitions; Equipment could be used at various locations on campus.
    1. Discussion: Patrick S.-Who told him to do it in 3 parts?; Josh- great requisition, there is a need on campus and it needs to go to an all campus vote because it

seems sleazy; Patrick Y.- How it was split up was in order of priorities and in order of ASWU involvement; Becca- A lot of students will think that it was broken up in order to avoid an all campus vote, it is more than \$5,000 and it needs to be transparent; Donovan- its important to remember that students don't know much about technology and will look at this as a lot of money and not pass it, pieces of this are distinct and make sense to be broken up, speakers should go to an all campus vote, snake maybe not; Peter D- we need to be serious about transparency and accountability if we are serious about our mission; Sarah-Since we just amended out FSOPs for more accountability, we need to do it; Patrick S- Consider what Kyle had to go through for his requisition and to not send all of it to an all campus vote would be bad; Mary- we should be very conscientious of why we're sending out the vote and raise awareness for the students for the needs; Patrick Y- the vote would be for less because it doesn't include tax.

2. Motion to vote on the snake requisition for \$2,500, Patrick S.; Christine 2<sup>nd</sup>; Passed.
3. Motion to vote on spending \$10,000 for the two speakers, Patrick S.; Christine, 2<sup>nd</sup>; Passed, to a student vote.
