- VI. EVP-Shannon Eshoff
 - A. Beck Taylor Prime time hopping tonight.
 - B. Vote tomorrow; schedule of who signed up to work the table will be sent around; Blurb to be put up:

"ASWU would like you to vote on the possibility of installing lights around the tennis near Graves Gym. These lights could be used for night-time recreation including basketball, tennis, Frisbee, or soccer and other activities such as dorm programs, dances and movies. The Cutter Courts could also be made into an ice rink in the winter, and utilized for camps during the summer. Installation would take about 9 weeks. The lights and installation would be funded by ASWU money, which comes from the student fees. The upper estimate of the cost is about \$40,000. This would come out of the capital budget, which is the long term budget, and would have no effect on ASWU's more accessible unallocated budget. Currently the capital balance is about \$58,000, so we would be left with about \$18,000 for requisitions for the rest of the year. Considering the anomaly of this year's budget, the remaining amount would be slightly lower than that of a usual year.

If passed, ASWU will commit to paying for the lights, up to \$40,000, out of the current capital budget of \$58,000. Installation would begin shortly, and the lights would ideally be completed in January or February.

If not passed, the money will be left in the capital budget and available for requisitions for other community-benefitting purposes.”
